

BOOSTER SHOTS™

Fortify your fruit juices. Supplement your soft drinks. Energize an ordinary cup of coffee, tea or even water with Booster Shots™, a convenient way to turn your beverage station into an elixir bar.

Research shows that energy drinks and functional beverages are the fastest-growing segment in the industry.

Consumers want drinks that offer the healthy benefits of vitamins, minerals and herbs.

Until recently, supplement-added drinks were available in bottles in the cold-vault alone. With Booster Shots™, patrons can combine the taste they want with the supplements they need with just a squirt from our convenient 1.1-liter bottle. Booster Shots™ come in four varieties that add energy, enhance health and promote alertness in any hot beverage or fountain drink.

ENERGY – GUARANA + CAFFEINE

Turn a sluggish morning on its head with a liquid shot of Energy, made from guarana and caffeine. Guarana is a South American berry that contains Guaranine, a substance similar to caffeine.

Consult your healthcare professional before using if you have a history of high blood pressure or heart disease. Do not use this product if you have any adverse reaction to caffeine. Since Guarana has the same effect as caffeine, it is advised to limit daily intake to a maximum of 300mg a day. Do not use if you are pregnant or nursing. Exercise caution when using caffeinated products.

ALERT – GINKGO + GINSENG

Maintain focus throughout the day's distractions with Alert, made from ginkgo biloba and ginseng. Ginkgo is used to enhance memory and promote concentration.

IMMUNE – VITAMIN C + ECHINACEA

Help protect from lurking colds and germs with Vitamin C and Echinacea. Vitamin C is a powerful antioxidant that promotes the body's immune and nervous system, helps build collagen and aids iron absorption. Echinacea is a popular herb that may reduce the symptoms and duration of colds and flu-like illnesses.

BALANCE – VITAMIN B12

Balance, a supplement of Vitamin B12. Vitamin B12 works to form red blood cells and promote the body's nervous system.
